

It matters not how many other gifts you may have planned for him, no Man's or Boy's Christmas is complete without a tie.

Count up the "Hims" in the family, the "Hims" who are friends—special of course—every one of them must have a Tie.

Our Tie show is worth coming to see. The handsomest silks the looms ever produced. The neatest shapes the makers ever turned out. **25c, 50c to \$1.50**

Of course, there are our Bath Robes, House Coats, Gloves, Suspenders, Mufflers, Shirts, Collars and Cuffs, Hosiery and many, many other things in Toggery—all new, and all handsome—but the Tie he must have.

COACH YARDS AND DEPOT SUBWAYS

Improvements in the Local Railroad Yards Which Will Completely Transform the Place—Tracks For the New Freight Depot.—Other Improvements Under Way.

Engineer A. Q. Campbell, in charge by the ETAOI SHRD, CMFWYP P of the extensive improvements ordered by the Harriman management at Ogden, says that the present cold plans has not materially interfered with the work in progress. The force has been slightly reduced during the past two weeks, but every man who can work to advantage is now employed on the new freight depot and in the enlargement of the yards. Two new tracks have been constructed to the site of the new freight depot, and Engineer Darling and a force of surveyors are now laying out and running lines for half a dozen new sidings in the same direction.

New Coach Yards. The new coach yards west of the passenger tracks at the depot are being enlarged as fast as the work can be accomplished and a new building will be erected there for coach supplies and material connected therewith. The new building is now being extended to the coach yards, and a force of men is now engaged in excavating and laying pipes for Pintsch gas.

Umbrella Sheds and Subway. The plans for umbrella sheds over the ten passenger tracks and for the subway leading to these have been approved and construction work on special carrier will deliver as late as 7:30 p. m. H. B. ARNOLD, Circulator.

JOB PRINTERS ATTENTION. One Gem 30-inch paper cutter, good as new, for sale at the Standard office. Call and see it and make an offer. Act quickly.

Service Has Grown. The fact is that the dining car and hotel and restaurant system has expanded so during the past year or two, that it was practically impossible to handle the business of the three great lines under one management, and as a matter of good business policy, the business was divided up and officials appointed for each. This change will enable each superintendent to give his undivided attention to the dining cars, hotels and restaurants on each system and will clarify and systematize the business methods of each. That is all there is to the change and the payroll at Ogden will remain quite as satisfactory as in the past.

REAL ESTATE TRANSFERS.

The following real estate transfers have been filed for record in the office of County Recorder Wallace:

E. G. McGriff and wife to the McGriff Orchard & Commission company, the southeast quarter of the northeast quarter and northeast and northeast quarter of the southeast quarter and two additional parcels of land in section 28, township 2, range 1 west. Consideration, \$125,000.

Edie M. Campbell to Lillie E. Ferguson, lots 5 and 6, block 1, Lakeview addition to Ogden. Consideration, \$1.

Parlies without accurate knowledge in the matter are circulating a report to the effect that the segregation of the Harriman dining car system will result in a reduction of employees and a material decrease in the monthly dining car payroll at Ogden. This is an error, as the number of employees making headquarters in this city will be enlarged and the payroll correspondingly increased. In reply to inquiries on the subject made by a Standard reporter this morning, Superintendent Gentsch of the Oregon Short Line dining car system, said:

Supt. Gentsch's Statement. "While certain changes have and will be made as a result of the recent segregation of the system, Ogden will lose nothing in the way of the number of employees or in a reduction of the payroll. The change has resulted in all of the dining cars of the three systems being 'cut out' here, and in the past some of these crews have been running through without ever laying off in Ogden.

The commissary department will continue to furnish supplies to all dining cars on the three roads and the stock carried will necessarily be quite as heavy as in the past.

A few clerks in the auditing department under Mr. Heas will go with him to Omaha, but otherwise there

will be no change, and the additional crews laying over here, under the present system, will more than make up, numerically, for those who will leave.

Changes in Service Has Not Hurt This Place.

Lay Over Is Given Men on the Dining—Growth of the Business Has Been Rapid.

same will be inaugurated as soon as the weather will permit. The umbrella sheds will extend to the south end of the commissary building from the north end of the Union depot annex, and the two subway entrances to the different tracks will be on the west side of the depot and north and south of the main entrance thereto. These stairways and subterranean passages will be seventeen feet in width, and one will be utilized for incoming passengers and the other for those going out on the different trains.

In the Subways. Passenger directors will be in the subways to direct and advise passengers where to emerge. In order to reach their respective trains, and the whole will be one of the most complete and modern improvements on the entire Harriman system.

Means Large Outlay. "These improvements, already approved, will entail a vast outlay of money," said Engineer Campbell this morning, "and extend in every direction from the union passenger depot. The management has been extremely liberal in its appropriations for this work, and when it is completed in its entirety the big depot and its environment will be a credit to the city and to those in authority on the great system."

will be no change, and the additional crews laying over here, under the present system, will more than make up, numerically, for those who will leave.

XMAS GIFTS

Only 7 Days

Beginning tomorrow morning, there are just seven shopping days to Christmas—days which will crowd the store. But we are provided to handle the crowds quickly and comfortably, no matter how large they might be.

The large aisles are being cleared and all of the available help we can secure is being placed where the rush will be heaviest.

Morning shopping just now can be done as pleasantly and quietly and slowly as at any other time of year; and in addition to the advantage of having time, we are giving four tickets on the automobile, instead of one, to those who shop before 12 o'clock.

Tops are going—Are your children supplied?

Our stock of toys is selling faster than it has ever done before, due to the fact that we have marked all goods cheaper than ever before.

Today the line is in such condition that we can supply any article that was here at the opening, but this condition will not prevail, as the present selling rate will soon break the lines.

Gifts for Men at our Clothing Store

A visit to the clothing store may solve the question of what to give. Everything that we have which is suitable for gifts to men, is now displayed prominently, and even some of the newest goods are reduced in price.

Free Handkerchiefs

Another evidence
